“An Introduction to Audio Over IP for Broadcast”

Henry Goodman

Director of Product Development at Calrec Audio Ltd.

To understand why the broadcast industry has set its heart on IP streaming, we will look at the key technology and try to breakdown some of the jargon. We will also consider how, in practice, AoIP streaming products are starting to be incorporated into broadcast facilities today, and, what will be possible both in the near and longer term.

PLUS! Tours of the newest ESPN remote vehicle currently under construction.

Event location:

NEP Integration Facility at the UPARC development in Harmar Township

(Directions and details will be sent at a later date.)

IMPORTANT NOTE: Due to high-security at UPARC, we will require RSVP's for this event. Please email smptepittsburgh@gmail.com with the names of those who wish to attend.
